

MY WATER, MY WORLD

Waterman Environmental Group Organisation and Services Chart

1 Waterman Environmental Services range of products.

A complete range of speciality water treatment chemicals for total water conditioning, ACOP L8 services including site compliance Risk assessments and Legionella compliance packages. Site chemical, microbiological and air monitoring analysis and a complete range of pre treatment and dosage and control systems. Total range of water hygiene and remedial services.

2 Waterman BIOcare Technologies range of products.

The Waterman ES Biocare range of products "deliver value through the application of white biotechnology, reducing costs and meeting compliance naturally" Biological solutions for hydro carbon removal giving significant reductions in carbon footprint and odour reduction can be achieved in several key areas, vehicle wash systems, static water tanks, car parks and garages.

3 Mercian Science UKAS accredited laboratory.

Mercian Science can provide a complete range of microbiological testing both from its main laboratory as well as a fully mobile unit. It can also provide the worlds first UKAS accredited rapid Legionella test, this test called Fastek can identify Legionella from water samples four hours after sample receipt. and in the unfortunate event of an outbreak it can provide a comprehensive Legionella outbreak control procedure/policy.

4 MIOX mixed oxidant technology.

MIOX technology enables the on site production of safe DWI approved biocides which can effectively control Legionella and pseudomonas infections together with providing a user friendly solution to bio-film problem without chemical handling and its associated COSHH implications. When in use energy savings of 25% can be achieved together with other significant ACOP L8 improvements.

5 Ridgetech Environmental Inksync Technology.

Pen and paper just got better, the complete answer to data capture, transfer and integration into back office system. This would allow any technical reports to be delivered to your PC within 30 seconds of our engineer completing his site visit.
